

Major Project II Follow Up Report

Project Title:*Banking Bot*

Group Members:

Name	Class	Roll no
Preksha Shetye	BE-B	204
Janhavi Patil	BE-B	202
Ravina Dalvi	BE-B	205

Problem Statement:

The main objective of this project is to create a chat-bot based interactive question-answering system capable of pronominal anaphora in a user-driven dialogue. The intention is that a user will be able to collect data on a given subject faster.

Work Done in Phase I:

We made a detailed report and presentation to understand the flow of the project. Then we started the study of IBM Watson which is the platform for our banking bot.

Project Status:

Currently we are trying to create the greetings part of our chatbot.

Future Plan:

We are planning to apply voice based input to our chatbot.

Timeline for Project Completion:

Week Number	Task to be done
Week 1	Study of NLP concepts related to chatbot
Week 2	Gathering dataset for the chatbot
Week 3	Study of IBM Watson platform
Week 4	Start building the chatbot
Week 5	Try to give voice input to the chatbot
Week 6	Make good UI using Html
Week 7	Use CSS styling
Week 8	Connecting chatbot and UI
Week 9	Run the chatbot
Week 10	Enter the user inputs and check the performance of the chatbot
